

FIRE EXTINGUISHER CYLINDERS

2019

FIRE EXTINGUISHER CYLINDERS

VALPRO is leading metal working company, which specializes in production of steel and stainless steel cylinders for fire extinguishers, extinguishing systems and other metal products.

Fire extinguisher cylinders quality is approved by Bureau Veritas.

It certifies that fire extinguisher cylinders conform to directive Pressure equipment directive 2014/68 EU.

Visually it is confirmed by CE marking on the body.

Products are accompanied with the manufacturer issued declaration.

FIRE EXTINGUISHER CYLINDER TYPES

TWO – PART CYLINDER

Max lenght of shell:

500 mm

Max diameter of shell:

190 mm

THREE – PART CYLINDER

Max lenght of shell:

800 mm

Max diameter of shell:

306 mm

THREE - PART STAINLESS STEEL CYLINDER

Max lenght of shell:

800 mm

Max diameter of shell:

306 mm

*All cylinder types are available in sizes 1 – 55 kg/L

FIRE EXTINGUISHER CYLINDER TYPES

	Powder cylinder	Cylinder with internal plastic coating	Stainless steel cylinder
2-PART (DEEP DRAWN)	✓	✓	✗
3-PART	✓	✓	✓
POWDER PAINTING	✓	✓	✓

LARGE FIRE EXTINGUISHER CYLINDERS AND TROLLEYS

Cylinders for 25 – 55 kg/L powder and foam fire extinguishers

Diameter of cylinders – 245, 293, 306 mm

Variety of neck rings

* To meet individual needs, different modifications of trolleys are available

CYLINDERS FOR AUTOMATIC FIRE EXTINGUISHERS

Available in sizes – 6, 9 and 12 L/kg

Diameter of cylinders – 293 mm

With or without internal plastic coating

CYLINDER'S MODIFICATIONS BY DESIGN

EXTERNAL AND INTERNAL SURFACE TREATMENT MODIFICATIONS

Electropolished stainless steel:
Matte or glossy

Non-standard colour painting
(RAL catalogue)

Special external and internal treatment
(primer, zinc plating, anti-corrosive paint etc.) for extra protection in aggressive environment

Special internal plastic coating
(Plastcoat)
